FINANCIAL.
NEW YORK, Dec. 11.—Not the least interesting feature of today's short session was the fact that it marked the first anniversary of the resumption of dealings on the stock exchange, after the enforced closure of virtually four and a half months due to the outbreak of the war.

Prices were extremely irregular at the opening. United States Steel fell 3/4 to 85 1/4, and Canadian Pacific declined 1/4 to 17 1/2, while war shares were fractionally lower. A demand for railroad shares, with New York Central leading the movement, soon restored losses and substituted general gains. New York Central rose 1 1/4 to 105 1/4, in connection with rumors that the dividend soon was to be increased.

Other features of strength in that group included Norfolk and Western, New Haven, Union Pacific and the Trunk lines. Specialties, particularly automobile stocks, Texas company, mercantile marine, preferred and some of the more conspicuous war issues responded to the general forward movement, with some shading from top prices at the close.

Total sales amounted to 297,000 shares.

DUN'S REVIEW.
NEW YORK, Dec. 11.—Dun's Review in its issue today has to say regarding trade conditions:

Complaint is no longer of deferred buying, but of difficulty in meeting the steadily expanding requirements. Consumptive demand exceeds supply in some lines and distributing channels are obstructed by the congestion of freight, rail and overseas shipping facilities still being inadequate to cope with the rush of traffic. This tends to act as a brake on commercial progress, yet the forward movement has not perceptibly slackened, either in domestic or foreign commerce. On the contrary, exports, in spite of the shortage of vessels and other obstacles, continue in notably better volume, while imports, though further swelled by the holiday season approaches, develop a more optimistic expectation, and the greater spending power of the masses is demonstrated both by the magnitude of the purchases and the

preference shown for the more costly grades of merchandise. This condition is general, every important center reporting a marked growth in retail dealings, but it is most apparent in the sections where the industrial boom has given employment to thousands of men that were formerly idle. Moreover, in many instances increased wages operate to offset the enhanced cost of commodities, and it is of significance in this connection that the rise in foodstuffs has been less pronounced than in other articles. Because of the continued broadening of consumptive requirements, wholesale prices are now at the highest level in nearly half a century and of late the advance has been particularly striking in iron and steel, where activity is unabated. Though facilities are taxed to the utmost and production is at the maximum, mills are unable to keep pace with the exceptional demands. Elsewhere in the manufacturing field capacity operations are also the rule, with New England textile and footwear plants running overtime, and, as an evidence of the augmentations of profits, many industrial corporations have declared extra dividend disbursements. Generally the credit situation reflects greater ease and the improvement in collections continues a feature, payments practically everywhere being much more prompt, and fewer extensions being asked as the amount of money in circulation increases.

SERVED WITH PAPERS.
PITTSBURGH, Dec. 11.—Evelyn Nesbitt Thaw, passing through Pittsburgh on a St. Louis train, was served with papers in the divorce suit instituted by Harry K. Thaw. When officers boarded the train Mrs. Thaw looked herself in the Pullman state room. The papers were pushed under the door.

SHAREHOLDERS MEETING.
The regular annual meeting of the shareholders of the Empire National Bank will be held at its banking house in the city of Clarksburg, W. Va., on Tuesday, January 11th, 1916, at 10 o'clock P.
